

The Mena Family wants to Welcome you to Giovanni's

This business was started for the simple fact that Porterville had a need to have a place where kids, adults, sports teams and more, could have birthday parties or hold fundraisers in a safe, fun and affordable manner. Giovanni's opened on August 15, 2007.

From the beginning it has been very well received by the public.

THANK YOU.

We do an average of 1,200 parties each year. We will continue to serve this area with fun games and good food. If we do not perform to your expectations, please let us know, one of us 5 are working in the business most of the time, sometimes all 5 of us are here to serve you.
